### Table of Contents

- **4.7 Project Objectives** ................................................................. 4-33
- **5.0 Environmental Impacts and Mitigation Measures** ................... 5-1
  - 5.1 Aesthetics ................................................................................ 5.1-1
  - 5.2 Air Quality ............................................................................... 5.2-1
  - 5.3 Biological Resources ............................................................... 5.3-1
  - 5.4 Geology ................................................................................... 5.4-1
  - 5.5 Greenhouse Gas Emissions ....................................................... 5.5-1
  - 5.6 Hydrology and Water Quality .................................................. 5.6-1
  - 5.7 Noise ..................................................................................... 5.7-1
  - 5.8 Transportation and Traffic ....................................................... 5.8-1
- **6.0 Plan and Policy Consistency** .................................................. 6-1
  - 6.1 2010 Long Range Development Plan ....................................... 6-1
  - 6.2 Isla Vista Master Plan ............................................................... 6-21
  - 6.3 Coastal Act Consistency .......................................................... 6-25
- **7.0 Growth Inducing Impacts** ..................................................... 7-1
- **8.0 Alternatives** ......................................................................... 8-1
  - 8.1 No Project Alternative ............................................................. 8-3
  - 8.2 Alternative Project Site ............................................................ 8-5
  - 8.3 Project Redesign Alternative .................................................... 8-20
  - 8.4 2010 LRDP Project Design ....................................................... 8-24
  - 8.5 Environmentally Superior Alternative ..................................... 8-28
- **9.0 References and Preparers** .................................................... 9-1
  - 9.1 References ............................................................................... 9-1
  - 9.2 Persons Contacted .................................................................. 9-6
  - 9.3 EIR Preparers ......................................................................... 9-6

APPENDICES

**EIR Volume 1**

Appendix A: Final Initial Study
Appendix B: Notice of Preparation and Responses

**EIR Volume 2 – Technical Appendices**

Appendix C: Air Quality
Appendix D: Greenhouse Gas Emissions
Appendix E: Hydrology and Water Quality
Appendix F: Noise
Appendix G: Transportation and Traffic
