UCSB – JEFF AND JUDEY HENLEY HALL (INSTITUTE FOR ENERGY EFFICIENT) BUILDING PROJECT

The Santa Barbara campus proposes to construct the Jeff and Judy Henley Hall, a 31,538 assignable square foot, 49,296 gross square foot, and three story building to provide facilities for the Institute of Energy Efficiency. The Building would include laboratories, offices, conference rooms, administrative space, a 125-seat lecture hall, courtyards, landscape areas, and bicycle parking on a project site that is approximately 1.4 acres. Henley Hall would be located in the eastern portion of Parking Lot No. 12, south of and adjacent to Mesa Road, and north of a bicycle path that is adjacent to the southern perimeter of the project site. Project construction is expected to commence in spring 2018.

In accordance with the State CEQA Guidelines and University of California Procedures for Implementation of the California Environmental Quality Act, a draft Final Initial Study/Mitigated Negative Declaration for the above named project has been prepared and approval of the project is pending a decision by the UCSB Chancellor.

The draft Final Initial Study/Mitigated Negative Declaration can be downloaded at:
